# The "Bulletin"

June, 2022

## Message From Our President

President, Lynda Krisko

As we prepare to go out for our summer hiatus, let us look at what we have accomplished this year. We had a very successful Paint N' Sip, a blood drive, 2 TAB's, a Wine Club event, a Flower Show, we awarded \$4000 in EWC Scholarships to LEUSD seniors and a STEM scholarship, and the Kennedie June Von Ryan scholarship. This month,

June 11, we are having a Pasta Dinner Fund Raiser and September 10 is the Un-niversary + One Reciprocity Tea. We are finally recovering from the pandemic. The June meeting has an Hawaiian theme, so find your aloha shirts and dresses to wear to the meeting. We will again collect for UNICEF for the children of Ukraine. My goal is to send UNICEF \$200 from the Elsinore Woman's Club. We have new light blue yearbooks for you. Be sure to pick one up, if you have not already done so. Get rested and be ready to get into action in September. Have a great July and August!!!

2022 Scholarship Recipients.

### May TAB—Another Big Success

A BIG THANK YOU to Debbie Kaatz for hosting the TAB get together in May .

It was another huge success. There were 20 members and guests in attendance to enjoy good company, good food, and the lovely outdoor setting. In

addition to a good time, \$200 was collected for the club.

### The Great Paper Give Away

Heidi Dodd with Elsinore Elementary Principal, Lorraine Pelaez with some of paper donated by the Ryan's.

Thanks to Kimberly and Harvey Ryan, the Lake Elsinore schools have an abundance of new paper. Two truckloads of paper in the Sacramento area were set to be sent to a landfill when Kimberly and Harvey stepped in and said they would take it and distribute it to our schools. They donated the paper to EWC and our club coordinated the dispersal to multiple elementary schools. The superintendent, Dr. Doug Kimberly and a handful of assistant superintendents brought LEUSD vehicles to Kimberly's flower shop. They all formed a human

chain from the shop to the vehicles, much like an old fashioned fire brigade, and quickly loaded hundreds of reams of paper. The paper was then driven to various school sites to be distributed to the teachers. The paper included card stock, colored paper, and plain white copy paper. All of which was greatly appreciated by teachers.

## EWC's Newest Member

Melody Danley is the newest EWC member. Melody is the mother of 6 grown children, 10 grandchildren and a retired foster parent to over 40 children. She has lived in Lake Elsinore for 13 years and is now a retired salon owner/hair stylist. Melody was sponsored for membership by Juanita Lewis. She and Juanita are walking buddies. Melody enjoys hiking dirt trails, playing in the garden and crafting. With her skills, Melody is a great addition to our organization.

\$6 Children

Ticket Price Includes:  
All You Can Eat Spaghetti,  
Water, Breadsticks,  
Salad and Dessert  
**Fun For The Whole Family!**

Tickets available at the June meeting.

## National Cancer Survivor Month

June is National Cancer Survivor Month in the United States. This is a time to raise awareness of cancer survivors, the issues they face throughout their lifetimes, and advocate for cancer survivorship research. As of 2019, there were 16.9 million cancer survivors in the United States. That number is expected to increase to 22.2 million by 2030.

Due to significant advances in cancer treatment and better patient outcomes, the tangible result of research and clinical trials, more and more people diagnosed with cancer are surviving and living longer than before. According to the National Cancer Institute (NCI), a person is a cancer survivor from diagnosis until the end of their life. This includes both people living with cancer and those who are cancer-free and in remission.

Just a few decades ago, the outlook for individuals diagnosed with cancer was much more negative than it is today. In the 1970s, 1 out of 2 people diagnosed with cancer survived at least 5 years, compared with more than 2 out of 3 people surviving today. The greatest survival rate improvements have been seen in children, adolescents, and young adults.

As people with cancer live longer even become cancer-free, more research is occurring to better understand specific issues that cancer survivors face and to improve cancer survivors' quality of life. This has created the relatively new and growing field of cancer survivorship research.

### Elsinore Woman's Club
